Row 10: Sc2tog, 1 sc in next st, sc2tog. Ch 1, turn—3 sts

Note: Now you will go right on to adding the sides of the of the slipper. This will require you to crochet right into the sides of the rows you have already crocheted. Try to keep the crochet stitches fairly even and consistent so the sole doesn't bunch up or get too big and baggy. The sides should look rather like the walls of a house when you're finished, with the sole of the slipper as the foundation.

For the sides -

Rows 11-15: Sc all the way around the sole. When you get back to where you started, join the rnd with a sl st, using removable stitch marker to mark beginning of rnd. Bind off.

Note: Now you will crochet the top part of the slipper, rather like the roof, and stitch it onto the walls once it is done.

For the top -

Ch 4

Row 1: Work 2 sc in 2nd ch from hook, 1 sc in next st, 2 sc in next st. Ch 1, turn—5 sts

Row 2: Work 2 sc in next st, 1 sc in next 3 sts, 2 sc in last st. Ch 1, turn—7 sts

Row 4: Sc all sts. Ch 1, turn

Row 5: Work 2 sc in next st, 1 sc in next 7 sts, 2 sc in last st. Ch 1, turn—11 sts

+Then sc back and forth until entire piece is two-thirds the length of the sole. Bind off, leaving a very long (but manageable) tail for sewing the top to the bottom.

Sewing on the Top -

Note: The sides should be slanted out when you sew the top on.

Align the top with the sides carefully, then sew tightly down the side, across the toe, and up the other side with a whip stitch. Make sure you leave the ankle part open or you won't be able to wear the slipper.

Next, sc all the way around the ankle opening. Tie off and weave in all loose yarn tails.

Optional: for custom fitting, weave an 8 inch yarn tail through the top of the back edge of the heel. Pull it tight or until comfortable against the back of your heel and either tie a knot or a bow with the loose ends.

Then, follow this pattern again for the second slipper.

Enjoy!
