Middle Ages, Renaissance, Reformation, & Epistles

SECOND EDITION

A Year of History, Geography, Bible

Lesson Plans for Grades 1–12

by Sonya Shafer

Study Bible, history, and geography together as a family!

This year of lesson plans leads all your students, grades 1–12, into the fascinating story of the Middle Ages around the world and how those events led to the Renaissance and the Reformation. The whole family also studies timeless New Testament epistles, with older students digging deeper into those epistles through personal Bible study.

The Charlotte Mason-style lesson plans

- Make history come alive through living books.
- Help your students listen attentively and recall what was read by narrating.
- Connect geography to the people who lived there—both past and present.
- Cultivate spiritual growth through direct interaction with New Testament epistles.
- Challenge older students with additional reading and writing assignments.
- Keep things simple by providing helpful reminders of upcoming resources, teaching tips, and Book of Centuries entries.

Lesson 3: Visit 1 to Australia

& James 1

Materials Needed

- *Visits to South & Central America and Australia*
- Bible
- Envelope; 2 sheets of paper
- *Life in the Word* (grades 7–12)

Family Geography: Complete visit 1 in *Visits to South & Central America and Australia*.

Family Bible Study: Write *epistle* on a small white board or sheet of paper. Show students the word and explain that *epistle* means “letter.” During the time of the early church, the followers of Jesus would write letters to encourage and instruct each other. This year you are going to look at several epistles of the early church. You will discover what was going on when each letter was written and see what you can learn from them.

Explain that some epistles are named after the person who wrote them and some are named after the people who received them. The first epistle you will look at is called “James,” for it was written by James, the half-brother of Jesus. He wrote it to encourage a group of Jews who had been run out of their homes because they believed on Jesus and had fled to other towns and countries. These refugees were facing many tough situations, or trials, of various kinds as they scattered and tried to find another place to live and work.

Have students address an envelope that reflects the epistle of James: put who it was from in the return address area and to whom it was written in the middle front. Label one sheet of paper “What To Do” and another paper “What Not To Do.”

Read together James 1, a paragraph at a time. Ask students to listen especially for James’ counsel about What To Do in a trial, or tough situation, and What Not To Do. Pause after each paragraph and ask students to share what they discovered: verses 1–4, 5–8, 9–11, 12–15, 16–18, 19–21, 22–25, 26–27. (Example: Count it joy; Ask God for wisdom; Don’t waver or doubt; etc.). Record their discoveries on the appropriate papers. Fold the papers and keep them in the envelope; you will add to them as you study each chapter of James in the coming weeks.

Tip: The easiest way to record their suggestions would be in words, but be open to other possibilities that might help students grasp the ideas in these passages. For example, you could draw sketches, or allow the students to draw their own sketches, and caption each one.

Jesus raised from the dead (30)

James believes on Jesus (30)

*James writes his letter to scattered
Jewish believers (c. 40–45)*

Focus on James 1:19–21. Discuss: What can we learn from these verses about what to do or not to do when we are in tough situations? What do we usually tend to do when we're in a trial? Why might it be especially important to be quick to listen, slow to speak, and slow to anger when we are in a tough situation?

Tip: *If an entire chapter would be too much for your students, feel free to spread out the lesson over several days, covering one paragraph per day, or to read and discuss only the "Focus on" verses.*

Grades 7–12: Help students to complete or assign as independent work *Life in the Word*, chapter 1, "Book Study of James," lesson 1.

Older students should be working on the long-term project of *Discovering Doctrine*. As they read through Scripture for schoolwork, in personal Bible study, or when listening to sermons, they should be looking and listening for any doctrinal truths about the ten major doctrines listed in the notebook: Bible, God the Father, Jesus Christ, Holy Spirit, angels, man, sin, salvation, the church, future events. Whenever they discover a doctrinal truth in Scripture, they should record it in the appropriate section of *Discovering Doctrine* along with the Bible reference where they found it.

Tip: *After they have read through the entire Bible (over several years) and recorded the doctrinal truths they have found there, they may summarize each section and compose a personal doctrinal statement.*

Lesson 4: Justinian the Great

Materials Needed

- *A Castle with Many Rooms: The Story of the Middle Ages*
- *The White Stag* (grades 7–9)

Write the names "Constantinople (Byzantium)" and "Justinian" on a small white board or sheet of paper for students to see. Read together *A Castle with Many Rooms: The Story of the Middle Ages*, chapter 2, "Justinian the Great." Help students find Constantinople on the map on page 274, *Europe in the Time of Odoacer*, when it is mentioned in the chapter. Ask for an oral narration.

Tip: *Narrations can be done in many ways. You may want to assign older children to do written narrations. Or visit our website at <http://simplycm.com/narration-ideas> for many more creative ideas that encourage students to narrate.*

James from last time's introduction and reading of chapter 1 (or 1:19–21). Allow them to look at the James envelope and the papers they started last time to prompt review. Explain that another thing it's easy to start doing when you're in a trial is to pick and choose who you're going to be nice to based on whether you think that person can help you. James brought up that topic next.

Read together James 2, a paragraph at a time. Ask students to listen for more of James' counsel about What To Do in a trial and What Not To Do in a tough situation. Pause after each paragraph and ask students to share what they discovered: verses 1–7, 8–13, 14–17, 18–26. Record students' suggestions on your ongoing papers.

Focus on James 2:1–9. Discuss: What can we learn from these verses about what to do or not to do when we are in tough situations? What does *partiality* mean? Is this passage saying that we should not respect some people more than others? Why? What is the difference between showing partiality and showing respect?

Tip: If an entire chapter would be too much for your students, feel free to spread out the lesson over several days, covering one paragraph per day, or to read and discuss only the "Focus on" verses.

Family Geography: Complete visit 3 in *Visits to South & Central America and Australia*.

Family Bible Study: Ask students what they recall about the epistle of James so far. Allow them to look at the James envelope and papers they have created to prompt review. Explain that when we are in the middle of a trial, we can receive advice from many different people, people seeking to teach us what they think we should do. How will we know whose words to follow and whose to ignore? James gave his readers some guidelines.

Read together James 3, a paragraph at a time. Ask students to listen for more of James’ counsel about What To Do in a trial and What Not To Do in a tough situation. Helpful Information

Why I Wrote These Lessons

I love to teach Bible history along with world events, and the first three lesson plan books in this series focus on Bible history from Genesis through Acts. Some time is spent studying world events that happened during those years, but the emphasis is on Biblical history.

With this fourth lesson plan book, the focus changes a little. We no longer have Biblical events to study, and world history picks up the pace. So with this fourth book, we delve into learning about people who lived in the past since the time of the book of Acts, and we combine that study with timeless truths from the epistles.

The lessons in this book will walk you through living books to read, Scripture passages to study, and map activities to do. You'll also find narration ideas, teaching tips, exam questions, and Book of Centuries dates.

One of my main goals is to show you how you can teach the same historical time period to all of your children at the same time, no matter what grades they are in. I firmly believe in the advantages that a one-room schoolhouse approach can bring. You will save time in both planning and teaching, and your children will grow together in community as they learn together and help each other.

Please keep in mind that this study is just a collection of suggestions. I'm simply passing along these suggestions to, hopefully, save you some time and give you some ideas. You know your children much better than I do, so feel free to change, add, or omit as you see fit. Remember, I used the books that were available to me; they may not be available to you. Don't be afraid to substitute.

Most of all, encourage the older children to help the younger, and allow the younger to look over the shoulder of the older; and together, enjoy these studies of history, geography, and God's Word.

Charlotte Mason Methods Used in This Study

Living Books

Probably the most well known of Charlotte Mason's methods is her use of living books instead of dry, factual textbooks. Living books are usually written by one person who has a passion for the subject and writes in conversational or narrative style. The books pull you into the subject and involve your emotions, so it's easy to remember the events and facts. Living books make the subject "come alive." The books used in this study are living books. If you make a substitution, please do your best to select a living book.

Bible Readings: The Bible is the best living book! And Charlotte encouraged us to give our children plenty of direct contact with the Bible itself, not feed them just watered down retellings. So you will find throughout the lessons, the Scripture passages to read aloud directly from the Bible.

Narration

When you ask a child to narrate, you're asking him to tell back in his own words what he just saw, heard, or read. The narration can be oral or written or drawn—whatever. Because the child must think through the information and determine how to present it, mixed with his own opinion and impressions, this method of evaluation requires a much higher thinking level than mere fill-in-the-blank or answer-the-posed-question-with-a-fact methods. When requesting a child to narrate, word the question in an open, essay-type form, such as "Tell all you know about ____" or "Describe ____."

Oral Narration with Many Children: Usually it's good to start with the youngest child, then work your way up the ages asking if each has anything to add. However, if you use this approach every single time, the older ones might get complacent. ("No, nothing to add.") So you can mix things up a little by calling on any child at random to start the narration sometimes. Not knowing who will be selected to give the oral narration keeps everybody alert and listening. The key is to have one child start the narration and then have the others add to it, not repeat it. That mental exercise of remembering what was already mentioned and searching through your mind for something new to talk about is also a plus!

Written Narration: Older children can be expected to take the next step and write their narrations. If your older child is not used to doing narration, give him several weeks or months to get used to the idea and have some practice narrating orally first. It's harder to keep your train of thought when you have to also think about the mechanics of writing, punctuating, capitalizing, and all such trappings, so make sure your child is adept and successful with organizing and expressing his thoughts orally before adding the writing aspect. Once he is an "old pro" at oral narrations, you can ease him into the written narrations by requiring just one a week or so to begin with. The lessons in this book will give suggestions for some written narrations. You can determine which of your students can handle those assignments.

Also keep in mind that you can do narration in many ways. Oral is the quickest and simplest. But if you would like to keep things fresh, you can have the children express what they learned in various ways. We have a list of narration ideas on our website that might help you: <http://simplycm.com/narration-ideas>.

Book of Centuries

A Book of Centuries is like a timeline in a notebook. As its name suggests, each two-page spread in the book is devoted to one hundred years—a century—of history. Each student creates his or her own book, recording historical events and names of importance, along with pictures, poems, quotes, and anything else that makes

the book individual. You can also add written narrations, illustrations from the Internet, or titles of books you've read that are set in that time period. As they add more history to the book, the students begin to make relations between people who lived in the same era.

Books of Centuries can be as simple or elaborate as you desire. If you want a simple one, download a free Book of Centuries template at <http://simplycm.com/BOC>.

We recommend each student in grades 7–12 create his own Book of Centuries. If your students are not yet old enough to take on the responsibility of their own Books of Centuries, you could create one together as a family.

Watch for helpful dates in the timeline column throughout the lessons in this book. You don't have to add every event listed; feel free to pick and choose. (Note: A "c" beside a date stands for "circa," which means "about" or "approximately.")

Suggestions toward Calculating Credits

Keeping track of high school credits is always a challenge but not that hard once you get the hang of it. You can calculate the credits based on actual time spent interacting with the material, or you can calculate credits based on the amount of work involved. Most authorities agree that if you are calculating based on actual time spent, a credit is awarded for every 120–180 hours spent on task, with 150 being average.

For the completion of grades 7–9 or 10–12 assignments in this *Middle Ages, Renaissance, Reformation and Epistles* study, **I suggest that students should be awarded 1 credit for World History/Geography, plus 1/3 credit for Bible.** Usually Geography is included with History and considered one course of study.

Below are details demonstrating how the credit suggestions for this study were calculated. The calculations for Hours Spent are an estimated average. The calculations below for the Course Work Detail assume the student completed all of the readings and assignments given in these lesson plans for grades 7–9 or 10–12.

Hours Spent

History & Geography—1 Credit

Average 4.5 hours per week x 36 weeks = 162 hours

Bible—1/3 Credit

Average 1.25 hours per week x 36 weeks = 45 hours
